

Corporate Environment Policy

As an integral part of our business philosophy, ACC Limited is committed to contribute towards ensuring a clean and sustainable environment by continually improving our environmental performance.

To achieve this goal, we wholeheartedly and proactively commit ourselves to:

- Conduct all our operations in an environmentally responsible manner that is better than statutory environment compliances and applicable standards.
- Continuously assess our environmental impacts and measure and improve our environmental performance by adopting best practices for prevention and control of pollution.
- Make continuous efforts to increase the use of non carbonaceous raw material, renewable energy and fuels and co-processing of wastes to reduce our greenhouse gases (GHG) footprint as part of our Climate Change mitigation initiative.
- Make continuous efforts to reduce water intensity and fresh water usage by increased use of harvested and recycled water in our operations.
- Assess biodiversity quality in all our extraction sites and strive to create a positive impact.
- Invest in research and development of environmentally sustainable products which have low ecological footprint over their life cycle.
- Implement and continually improve the Environmental Management System across all our operations.
- Adhere and report our environmental performance to all our stakeholders.
